Product	MagTek DynaMag	Ingenico Link 2500	Ingenico Lane 3000	Stripe WisePOS E
Overview	The MagTek Dynamag delivers connection via USB, Use the Dynamag as your stationary point-of-sale system.	The Ingenico Link/2500 is Wi-Fi and Bluetooth enabled for a complete mobile point-of-sale solution allowing you to move throughout the salon. Designed from the ground up for all-purpose mobile use, the Link 2500 can be used in tandem with iPad and desktop checkout to create a secure, smart, mobile payment experience.	Designed for all payment types, the Lane/3000 is a fast and secure POS solution that optimizes the checkout and accepts all card-based payments. This model focuses exclusively on processing EMV payments for multi-lane checkout use cases.	The WisePOS E, manufactured by BBPOS, is an Android based smartPOS with a 5 inch display that supports PIN on glass. Similar in size to a smartphone, the WisePOS E can be used in-store as a hybrid countertop and handheld reader. The WisePOS E can be connected to your existing iOS, Android, or JavaScript application over a local network connection via WiFi.
