

Secure cash flow and build trust by accepting secure, tamper-resistant, encrypted payments with a card reader

Mobile

			
Product	MagTek iDynamo	BBPOS Chipper 3X BT	Stripe Reader M2
Overview	Powered by the Lightning port, this sleek mobile magnetic stripe card reader attaches to Apple iPhone and iPad devices for secure, encrypted mobile one-swipe payment acceptance.	The BBPOS Chipper™ 3X BT is a compact and flexible mobile Point-of-Sale (mPOS) solution that supports all swipe, chip card (EMV), and contactless (NFC) payment functions. Extended battery life makes Chipper™ 3X BT perfect for high-volume businesses.	Stripe Reader M2 is a battery-powered mobile reader for your iOS and Android-based point of sale applications. It supports EMV contactless and chip transactions, mobile wallets like Apple Pay and Google Pay, and swipe payments. Stripe Reader M2 connects to your point of sale application over Bluetooth, and can be used with an optional dock or tablet mount. It is PCI-SCR validated, provides end-to-end encryption, and is point to point encryption (P2PE) ready.
